FILTERING ELEMENT 26.074.00

DISTINCTIVE FEATURES

- Developed in UFI Filters' Innovation Centres, the new patent pending filter 26.074.00 guarantees high filtration efficiency (>98.5% at 6 μm).
- The green cartridge is made with FormulaUFI.Cell P97 and the helical shape guarantees a unique design.
- The element is renewable diesel compatible, tested with B30 bio-diesel according to Ford requirement.

MAIN APPLICATIONS

Ford Transit Ford Tourneo

FormulaUFI.Cell P97

PLUS

- + Filtration efficiency > 97% @ 5 μm
- + Long service interval, min. 30g dust holding capacity
- + Minimum water separation efficiency < %95
- + Works under extreme cold conditions at -40°C

Inside the box you will find the installation instructions to facilitate the service operations.
